STIPULATIONS

It is hereby stipulated and agreed by and between the parties hereto, through their respective attorneys, that the video conference deposition of CARLOS RISCO, DVM, may be taken on behalf of the Plaintiff on JUNE 12, 2023, in the City of Stillwater, Oklahoma by Brenda Schmitz, Certified Shorthand Reporter within and for the State of Oklahoma, and Registered Professional Reporter, taken by notice pursuant to the Federal Rules of Civil Procedure.

It is further stipulated and agreed by and between the parties hereto, through their respective attorneys, that all objections, except as to the form of the question and the responsiveness of the answer, are reserved until the time of trial, at which time they may be made with the same force and effect as if made at the time of the taking of this deposition.

1 And thereupon the following witness was produced
2 by the Plaintiff:

3 CARLOS RISCO, DVM,
4 the witness hereinbefore named, being first duly
5 cautioned and sworn to testify the truth, the whole
6 truth, and nothing but the truth, testified on his
7 oath as follows:

8 DIRECT EXAMINATION

9 BY MR. BACH:

10 Q. Hi, can you state your name for the
11 record, please?

12 A. My name is Carlos Risco.

13 Q. And, Dr. Risco, you understand that my
14 name is Jason Bach, I'm the attorney who represents
15 Jonathan Rivera-Pierola and you understand that he
16 has brought a lawsuit against the university?

17 A. I do.

18 Q. Okay. Have you ever given a deposition
19 before?

20 A. I have, sir. Years ago.

21 Q. Okay. You understand that the court
22 reporter is taking down everything that's being said
23 here today?

24 A. I do.

25 Q. Okay. And the oath that you took is the

1 example, temperature, pulse, respiration, make
2 observations, working with the technicians who
3 administer the -- the treatment, and to provide back
4 to the clinician, how is the case progressing. Now,
5 the clinician is also involved, it's not like we
6 delegate it to the students, so they're working
7 together, that's -- that's the main difference.

8 Q. Okay. So, I don't want to put words in
9 your mouth, so please -- please tell me if this is
10 accurate. The way I've heard you describe these two
11 separate portions of the program, the preclinical
12 versus the clinical portion, I believe the three
13 years of preclinical you have described are more
14 akin to what I think most people would perceive as
15 being a standard college course, you've described
16 lectures and exams. Would you agree that that's
17 accurate?

18 A. Yes.

19 Q. But it sounds like you described a unique
20 nature to the clinical portion of the program, it is
21 different from what the standard college course
22 would look like. Is that correct?

23 A. That's correct.

24 Q. In your time as Dean of the Veterinary
25 School at Oklahoma State, are you aware of any

1 instances of academic integrity violations being
2 filed or brought against clinical students?

3 A. No.

4 Q. Do you know why that might be?

5 A. When -- so the -- when we use this word
6 "integrity" in the -- there's a number of -- of
7 reasons why that may -- may happen. One, the
8 obvious one, a student cheated on an exam. They
9 copied each other, under that umbrella of cheating.
10 That's one.

11 Another one could be plagiarism, depending
12 on -- depending on the course, our students are
13 asked to gather a report for credit as part of their
14 credit, and, of course, it's plagiarism. The other
15 one that it may happen is, in research, where you
16 simply come up with data, you fill in, and this is
17 not data that came from an observation, whether it's
18 a blood work, whether it's -- regardless of what it
19 is, those are the main -- the main areas.

20 It's -- they -- the integrity of this -- this
21 work in the clinical setting, would be very
22 difficult to -- to document, outside of the fact
23 that you may have a student that then they say,
24 well, the -- remember, I mention that they observed
25 the animal, the temperature, the pulse, the
